annotation in this fundamental contribution to the study and application of sociological theory wallace examines a wide range of theories within a framework that clarifies their interrelationships and illustrates their implications for empirical research wallace is able to point out the symbiotic relationships among these theories which at first may appear to be in direct opposition or at least discord sociological theory begins with an original essay by the editor that introduces the reader to eleven general theoretical viewpoints he calls these ecologism demographism materialism psychologism technologism functional structuralism exchange structuralism conflict structuralism symbolic interactionism social actionism and functional imperativism to do this wallace assembles selected readings by major theorists that provide detailed examples of each of the theoretical viewpoints discussed the selections are keyed to the framework developed in the introduction so as to enable the reader to work back and forth between the general and the particular statements offering far more than a mere survey or an abstract critical analysis in this way sociological theory provides a learning matrix that facilitates comprehension and enables the reader systematically to expand his knowledge of sociological theory in developing his analytical framework wallace points out how these different types of theory complement rather than conflict with one another through this approach he is able to show the distinctive level and scope of analysis of each theory to demonstrate why the sociologist must draw upon and integrate several viewpoints for interpreting research results and formulating hypotheses a useful guide and reference work for researchers and teachers the book is an excellent basic or supplementary text for all theory courses as robert k merton noted at the time of the original

publication sociological theory is a beautiful piece of work

this concise text covers both classical and contemporary social thought it traces the major schools of thought over the past 150 years as they appear and reappear in different chapters and looks at important new voices in social theory the treatment of individual theories and theorists is balanced with the development of key themes and ideas about social life

central to most sociologists self image is the claim that their theories are based on research however using a random sample of 680 articles appearing in major american british and canadian journals dr menzies shows that in some areas of sociology the wide gap between theory and research means that much of sociological theory is virtually untested he explains how theory is embodied in eight particular types of research critically examines these research theories and contrasts them with the positions of modern theorists the sample of journal articles also permits a comparison of british american and canadian sociology by contrasting on how researchers us theories dr menzies is able to reassess several theories for instance symbolic interactionist research uses embedded causal claims and stands in a dialectical relationship to other sociological research while the research version of conflict theory depends on external causes to explain social change the implications of using statistical techniques like factor analysis and regression are also considered in relation to the form of explanation

the author focuses on three tasks in this book establishing a set of core theoretical problems in sociology organizing the complexity of theories in terms of their explanatory intent and drawing on the literature of sociological theory to indicate the complementary contributions of classic and contemporary theorists to managable sociological problems

a concise yet surprisingly comprehensive theory text given the range of ideas historical context and theorists discussed unlike other books of the type classical sociological theory focuses on how the pivotal theories contributed not only to the development of the field but also to the evolution of ideas concerning social life

an upper division undergraduate social theory textbook that introduces the student to the multitude of different theorists this book helps students grasp theories and their relevance and application to modern life

social theory has undergone dramatic changes over the past fifteen years the aim of this book is to provide a comprehensive survey of those changes and an authoritative statement on current trends of development in social thought the contents of the book range in a systematic way across the major traditions of social theory prominent today among the topics covered are the relationships between modern social theory and the classics of the late eighteenth and nineteenth centuries the connections between social theory and mathematical social science and the logical status of generalizations in the social sciences traditions of thought discussed include behaviourism symbolic interactionism parsonian theory analytical theory structuralism and post structuralism ethnomethodology structuration theory world systems theory marxism and critical theory

sociology is experiencing what can only be described as hyperdifferentiation of theories there are now many approaches competing for attention in the intellectual arena from this perspective we should see a weeding out of theories to a small number but this is not likely to occur because each of the many

theoretical perspectives has a resource base of adherents as a result theories in sociology do not compete head on with each other as much as they coexist this seminal reference work was brought together with an eye to capturing the diversity of theoretical activity in sociology specifically the forefront of theory contributors describe what they themselves are doing right now rather than what others have done in the past the goal of this volume is to allow prominent theorists working in a variety of traditions who wouldn't usually come together to review their work the chapters in this volume represent a mix of theoretical orientations and strategies but these theories are diverse and represent the prominent theoretical discussions in sociology today some areas included are section i theoretical methodologies and strategies section ii the cultural turn in sociological theorizing section iii theorizing interaction processes section iv theorizing from the systemic and macrolevel section v new directions in evolutionary theorizing section vi theorizing on power conflict and change section vii theorizing from assumptions of rationality this handbook will be of interest to those wanting a broad spectrum and overview of late 20th early 21st century sociological theory

this book integrates new and emerging aspects of sociological theory into a detailed treatment of theories and theorists providing students with a framework for organizing the many types of sociological theory in this edition it is particularly concerned with outlining the changes that have taken place within sociological theory since the first edition of this book was published in the late 1960s the book is split into seven sections that identify the paradigms of sociological theory functionalism evolutionary conflict exchange interactions structural and critical the text offers an in depth analysis of each theory and it reflects their emerging maturing and continuing traditions in addition the book covers the work of key modern figures in each of the paradigms as well as their founders

introducing you to the most important thinkers and schools of thought in contemporary sociological theory from parsons and merton to the frankfurt school to foucault bourdieu giddens and hochschild this accessible textbook firmly locates key ideas in social political and historical context by doing so it helps you to understand the development of central sociological concepts and how they can help us understand the contemporary world the book includes lively biographical sections so you can get to know each thinker clear and easy to understand accounts of each theorist's arguments and the most common criticisms key concept boxes highlighting the most influential ideas this comprehensive textbook brings the diverse field of contemporary sociological theory to life essential reading for all students of sociology and sociological theory

this book looks at a range of sociological theories from the last two hundred years along with five fundamental questions such as what is the unit of analysis in sociology and what concepts of structure are embedded in the sociological view of the social world and how have these concepts changed over time with illustrations from the work of theorists such as john stuart mill emile durkheim talcott parsons karl marx karl mannheim michel foucault anthony giddens and erving goffman this book provides an accessible guide for introductory students of sociology taking their first course in sociological theory

rather than a work of theory itself explorations in classical sociological theory seeing the social world is an insightful work that invites students to think creatively reflexively and critically about their social worlds written in a conversational tone that lifts the veil of theoretical jargon explorations in classical sociological theory introduces students to the major classical theorists including marx spencer durkheim weber simmel mead schutz gilman and du bois this text focuses on the individual perspective of each theorist rather than schools of thought and uses the provocative ideas of modernity and postmodernity to help students understand how the theoretical historical perspectives apply to their own time period

this book examines individualism and holism the two interpretive perspectives that have divided sociological theory into two camps examines attempts to overcome this antinomy and sets out a new approach to resolving this dilemma via critical reconfigurationism

introducing sociological theory offers a comprehensive navigable and highly readable introduction to the main schools of thought in sociology along with the philosophical ideas that underpin them 8 broad theoretical traditions or perspectives are explained helping you to recognize the scope and range of sociological theory and to think sociologically and see the social world in different ways the author skilfully and revealingly engages with each theoretical perspective showing what it actually means why it utilises certain concepts over others and how it generates and derives from evolving traditions of sociological thought introducing sociological theory is an essential text for all sociology students and of key interest more broadly within the social sciences and humanities

the authors are proud sponsors of the 2020 sage keith roberts teaching innovations award enabling graduate students and early career faculty to attend the annual asa pre conference teaching and learning workshop now with sage publishing and co authored by one of the foremost authorities on sociological theory the tenth edition of sociological theory by george ritzer and jeffrey stepnisky gives readers a comprehensive overview of the major theorists and schools of sociological thought from sociology s origins through the early 21st century key theories are integrated with biographical sketches of theorists and are placed in their historical and intellectual context this text helps students better understand the original works of classical and contemporary theorists and enables them to compare and contrast the latest substantive concepts

the revised third edition of the text that combines classical and contemporary theories of sociological theory thoroughly revised and updated the third edition of an introduction to sociological theory offers an in depth introduction to classical and contemporary theories and demonstrates their relevance to offer a clear understanding of a broad range of contemporary issues and topics as with the previous editions the text continues to combine carefully selected primary quotations from a broad range of theorists with extensive discussion and illustrative examples from a diverse range of countries helpful timelines of important and thematically relevant events biographical notes contemporary topic boxes analytical photos and chapter glossaries the text addresses topics such as the persistence of economic and social inequality brexit post truth society same sex marriage digital surveillance and the on demand gig economy written in an engaging style introduction to sociological theory offers a comprehensive introduction to the pluralistic breadth and wide ranging applicability of sociological theory this updated edition of the authoritative text contains both classical and contemporary theories in a single text builds on excerpts from original theoretical writings with detailed discussion of the concepts and ideas under review includes new examples of current empirical topics such as brexit donald trump s presidency china s growing economic power global warming intersectionality social media and much more offers additional resources including a website that contains multiple choice and essay questions a thoroughly refreshed set of powerpoint slides for each chapter with multimedia links to content illustrative of sociological processes a list of complementary primary readings a quotation bank and other background materials written for undergraduate courses in contemporary and classical sociological theory the third edition of an introduction to sociological theory continues to provide a comprehensive in depth and empirically engaging introduction to sociological theory

the strengths of this text are the breadth of theories covered the integration of gender related topics3 4 family work religion the use of substantial quotes from primary texts the consistent inclusion of methodological issues i have no doubt that it will find a solid position in the field of theory texts kathleen slobin north dakota state university

the seventh edition of sociological theory by George Ritzer, one of the foremost authorities on sociological theory, gives readers a comprehensive overview of the major theorists and schools of sociological thought. Key theories are integrated with biographical sketches of theorists, and theories are placed in their historical and intellectual context. This helps students to better understand the original works of classical and modern theorists, as well as to compare and contrast the latest substantive theories. **Book Jacket**

Sociological theory is an attempt to trace the development of sociological theory from the classical to the modern period. A comprehensive and balanced introduction studies all the important thinkers chronologically so that the students can locate the continuity as well as the discontinuity of thoughts and themes. A concise formative background of every thinker is outlined in the text to entice the reader to take a deeper plunge into the theories. The introductory chapter tries to sketch the broad outlines of the classical sociological theories, whereas the concluding chapter examines the thematic shifts and the interlinkage between all the theories from the classical to the contemporary period. All chapters are pedagogically rich with glossary keywords and discussion points. The language is lucid and comprehensible, and the treatment of the text is such that it develops an appreciation for the subject.
