at the crisis of his republic plato asks us to imagine what could possibly motivate a philosopher to return to the cave voluntarily for the benefit of others and at the expense of her own personal happiness this book shows how plato has prepared us his students to recognize that the sun like idea of the good is an infinitely greater object of serious philosophical concern than what is merely good for me and thus why neither plato nor his socrates are eudaemonists as aristotle unquestionably was with the transcendent idea of beauty having been made manifest through socrates and diotima the dialogues between symposium and republic lysis euthydemus laches charmides gorgias theages meno and cleitophon prepare the reader to make the final leap into platonism a soul stirring idealism that presupposes the student s inborn awareness that there is nothing just noble or beautiful about maximizing one s own good while perfectly capable of making the majority of his readers believe that he endorses the harmless claim that it is advantageous to be just and thus that we will always fare well by doing well plato trains his best students to recognize the deliberate fallacies and shortcuts that underwrite these claims and thus to look beyond their own happiness by the time they reach the allegory of the cave the culmination of a carefully prepared ascent to the good

this study focuses on laches protagoras and the conversation between socrates and agathon in the symposium for these dialogues the author proposes a strategy of interpretation that insists on the dialogues essentially interrogatory character stokes argues that we are not entitled to ascribe a thesis to socrates far less to plato unless he unambiguously asserts it as his own belief for the most part stokes argues socrates is doing what he claims to be doing cross examining his interlocutor he draws the

materials of his own argument from the respondent's explicit admissions and from his own knowledge of the respondent's character, commitments and ways of life, what is shown by such a procedure is not according to Stokes that a certain thesis is true or false, but rather that a certain sort of person with certain commitments can be led on pain of inconsistency to assent to theses that at first seem alien to him. Sometimes as it turns out, these are theses that Socrates also endorses in his own person. Times literary supplement

Socrates is widely regarded as the first philosopher to investigate not simply the natural world but to make human and political questions concerning justice, virtue and the good life central to rational inquiry. Thus Socratic philosophy is often viewed as taking a rationalist approach to human narratives and becomes a narrative itself. After Socrates, the prevailing view of what defines the Greeks and those commonly regarded as their descendants, the Europeans, is their civilizational foundation in philosophic rationalism. The Socratic conception of Greek and European identity has not gone unchallenged. However, in antiquity, the comic poet Aristophanes lampooned Socrates as impious and unjust and cast doubt on whether the Socratic way of life was an appropriate basis for politics. Examples from more recent times include the ambiguous place that Socratic philosophizing holds in the philosophies of Hegel, Kierkegaard and Nietzsche. The reassessment of Socratic rationalism in the 19th century has led to a post-modern suspicion of grand narratives. The radical critique of Socrates as the remote but powerful source of the priority assigned to reason in the 17th and 18th century Enlightenment has shaken European faith in scientific, social and political progress. The European mind is left longing for a unifying narrative that crystallizes the European identity. Can Socratic philosophy survive the powerful challenges made in the name of history, faith and art? Does Socratic philosophizing adequately sustain political life in the face of such challenges and does it prioritize reason over other human ways of knowing and representing their world alternatively?

do the positions of later thinkers offer superior ways to understand the human person and develop political communities this volume addresses these and related questions as it seeks to recover and revise our understanding of socratic philosophy as an appropriate paradigm for european identity it takes an interdisciplinary and international approach with contributions from scholars in the fields of philosophy classics religion english and political science the contributors teach and research in europe canada the united states and iran

are human beings antithetical in nature is there a radical difference between pleasure efficiency and moral good or is the conflict only imaginary these have traditionally been considered the central questions of plato s most vivid dialogue the protagoras many interpreters have seen this dialogue as a confrontation between the moralist plato and the relativist protagoras this dichotomy is manifest when plato and protagoras discuss theoretical questions concerning either knowledge of facts or knowledge of values through a careful examination of the text specifically of practical questions about values oded balaban breaks with tradition by concluding that plato and protagoras do not exemplify characteristic moralism or relativism at all he finds that the issue at the crux of the discussion is instead that of the criterion for knowledge and valuation the protagoras thus describes the search for a standard by which anything may be known and valued balaban applies the fundamental question of standards to that of the entire field of rhetoric should a discourse be short or long simple or complex what is the standard for conducting literary criticism the author s revolutionary approach to the protagoras also involves a study of the myth of protagoras and situates the dialogue within its framework
