pharmacologists and the patients and families who live with manic depressive illness

in mental health social work colin pritchard draws on his many years of experience in research teaching and practice in order to explore key issues for social workers who want to work in the mental health field mental health social work can be one of the most rewarding and one of the most frustrating areas of social work practice social workers need to have a good knowledge of interventions and their evidence bases from pharmacology to psychotherapy but also be able to work sensitively and effectively with both clients and carers in a rapidly changing context based on a series of case studies and research based practice the book explores key topics including the multiple factors affecting mental health the bio psycho social model of practice key areas including depression suicide schizophrenia and personality disorder the mental healthâ child protection interface residential work treatment modalities presenting new and challenging research findings in this field this book will be invaluable reading for undergraduate social work students and for practising social workers

donald rodriguez takes readers on a roller coaster ride as he shares what it means to live with bipolar 1 disorder when manic episodes began to creep into his life he put his family through hell and risked his own life in the process meanwhile he loaded up on the toughest classes he could take as a premed student at boston university joined a fraternity played for the club hockey team and took on more than he could handle his family physician prescribed him adderall to focus and trazodone to sleep rodriguez also started taking prozac because his doctor thought he had situational depression because his grandma had died his longtime girlfriend had dumped him and his college coursework was stressing him out injuries had also forced him to stop playing hockey in short order he was abusing prescription drugs and scaring the people that loved him most when he was finally diagnosed with bipolar 1 he had to ease his life into a place of balance

this book is a comprehensive textbook of the neurological behavioural motor sensory cognitive psychiatric developmental and basic research performed on hiv 1 infection of the nervous system the contributors represent some of the foremost clinical and basic science investigators in the field of neuroaids worldwide particular emphasis is placed on current thinking with regard to disease pathogenesis patient care and the prospects for the future human immunodeficiency virus type 1 hiv 1 infection can often lead to a number of neurological events including peripheral neuropathy myopathy vacuolar myelopathy and cognitive motor and behavior abnormalities the mechanisms by which the virus invades the nervous system and induces neurological deficits are the focal points of this book such topics are covered from the laboratory bench to the patient bedside considerable emphasis is placed in how research is performed at the molecular cellular animal model and patient levels the work includes considerable emphasis on the epidemiology psychological and psychiatric aspects of the disease complex a complete section on the clinical aspects of disease is included as a first time effort using patients to describe disease manifestations rather than physicians or researchers the emerging new fields of genomics and proteomics have begun to better define the host factors that permit active viral production in the brain as well as lead to a secretion of a plethora of inflammatory and cytotoxic factors that lead to neuronal injury and subsequent death such processes not only define aids neurology but also are the underbelly of most neurodegenerative disorders including but not limited to alzheimer s and parkinson s disease amyotrophic lateral sclerosis and huntington s disease significant advances in antiretroviral viral therapy have markedly diminished the incidence of hiv 1 associated dementia had while peripheral neuropathy remains a common disorder neuropsychological methods to monitor cognitive impairments are more precise and as patients live longer with disease more subtle neurological manifestations of disease have emerged incredible advances in studies of viral neuropathogenesis diagnostics and therapeutics for had and much more are covered in the book a number of germane

questions have been addressed in a comprehensive manner including issues relating to hiv 1 neurovirulence and neurotropism cellular factors influencing viral replication therapeutic challenges and the changing epidemiological patterns of disease including peripheral neuropathy the contributors to this book represent some of the foremost clinical and basic science investigators in the field of neuroaids worldwide

a former captain in the combat engineers tells his story of confinement as a neuropsychiatric patient in army hospitals delivers an indictment of the conditions and most of the personnel in the hospitals and relates how he obtained his release bonner john wyatt bibliography of georgia authors 1949 1965 a

this book uses the recent findings of cognitive and clinical psychology to draw a picture of the historical jesus the author uses recent research on conversational memory and clinical psychology in order to shine a light on the way jesus was this book argues that jesus suffered from manic depressive illness he identified with god he suffered from extreme mood changes and felt great compassion towards people all of these are mental states which may be triggered by manic depression manic depression is not a dementing illness this author is not saying that jesus suffered from a backward type of psychosis but manic depression when manifested in talented persons acts as a catalyst to trigger artistic creativity many great artists and poets have suffered from manic depression byron schumann tennyson van gogh fitzgerald and lowell to name a few it is among great poets and artists such as these that the author places the historical jesus this book therefore argues that the writers of the gospels when they record jesus as asserting his divinity were conveying an accurate picture of him his assertions of divinity were not fabrications of the early church
